

Global C-21A (Lear 35A) Aircraft Support

DynCorp International is a global government services provider in support of U.S. national security and foreign policy objectives, delivering support solutions for defense, diplomacy, and international development.

ENSURING PEAK CONDITION AND PERFORMANCE ACROSS THE GLOBE

For over 60 years we have delivered the highest level of program management and organizational, intermediate, and limited depot-level maintenance for all types of aircraft, ground support equipment, and vehicles across the globe.

From long-term missions to rapid-response field assignments, we provide comprehensive C-21A (Lear 35A) aircraft support solutions that range from meeting daily maintenance and reconfiguration requirements to expedited aircraft transfer and recovery worldwide.

- Aircraft Maintenance & Overhaul
- Condition and Reconfiguration Upgrades
- Rapid-Deployment Depot Field Repair Teams – both CONUS & OCONUS
- Aircraft Phase & Non-destructive Inspections
- Aircraft Scheduling & Transfer
- Launch Recovery Thru-flight and Pre-flight
- Equipment and Parts Procurement, Logistics, & Management
- Support Equipment Maintenance & Modification
- Site Preparation, Upgrade, Maintenance, & Phase-out
- Quality Control – ISO 9000:2008 Certification & Federal Aviation Administration (FAA) Part 145 Certification

We currently provide the U.S. Air Force full Contractor Logistics Support (CLS) for Active Duty C-21A aircraft, and limited support to Air National Guard C-21A aircraft. Under this contract we provide total organizational and depot level aircraft and engine maintenance, spares, special tooling, and support equipment 24 hours a day, year round at six worldwide main operating bases and one overseas extended deployment base – supporting directed mobility and/or deployment requirements. Additionally, we provide depot level aircraft and engine support and full Contractor Operated Main Base Supply (COMBS) at three Air National Guard (ANG) sites directly supporting their C-21A aircraft. We maintain the C-21A fleet to FAA standards and manage depot aircraft and engine support, paint, major airframe repair, and depot modification.

FEDERAL AVIATION ADMINISTRATION (FAA) AWARDS

The C-21A CLS program received its second consecutive Federal Aviation Administration's (FAA) prestigious Diamond Award of Excellence, directly recognizing our efforts in Aviation Maintenance Training. Additionally all Airframe and PowerPlant (A&P) technicians received individual awards.

GERMANY

Our Germany Support Team is responsible for not only ensuring operational readiness for the entire C-21A fleet at the base, but for rapidly deploying for recovery of aircraft anywhere in the European and African AORs – from Greenland to all regions of Africa and the Middle East. With increased activity throughout the European area, we are on constant aero-medical evacuation alert status, with specially configured C-21A.

ABOUT DYNCORP INTERNATIONAL

DynCorp International is a global government services provider in support of U.S. national security and foreign policy objectives, delivering support solutions for defense, diplomacy, and international development. DynCorp International operates major programs in logistics, platform support, contingency operations, and training and mentoring to reinforce security, community stability and the rule of law.

DynCorp International is a member of the National Business Aviation Association (NBAA). This association brings together all business aircraft operators for discussion of common issues. Our C-21A CLS Program Director is a permanent member of the NBAA sponsored Learjet Technical Committee meetings which focus on Learjet's priorities for engineering and supportability of their entire product line.

We serve today for a safe tomorrow.™
