

We serve today for a safe tomorrow.™

DynCorp International is a global government services provider in support of U.S. national security and foreign policy objectives, delivering support solutions for defense, diplomacy, and international development.

WE SERVE TODAY FOR A SAFE TOMORROW

DynCorp International operates major programs in logistics, platform support, contingency operations, and training and mentoring to reinforce security, community stability, and the rule of law.

We provide expertly conceived and professionally executed services to meet the complex demands of today's world. We have broad international expertise and over 60 years of experience working in remote, dangerous and austere environments. We integrate our many competencies to provide solutions that fit each customer and situation, and bring a culture of compliance, accountability, and relentless performance to each program and task.

WE ARE GUIDED AT ALL TIMES BY OUR CORE VALUES

As a service company, our people are our greatest asset. We pride ourselves on the quality and commitment of our personnel, the agility and depth of our program management, and the standards of excellence and of professional and ethical conduct we uphold in all that we do.

We Serve – willingly in all locations and conditions.

We Care – for the safety, security, development, and well-being of our employees.

We Empower – our employees to succeed in a culture based on trust, respect, loyalty, and commitment.

We Perform – with a relentless commitment to exceeding expectations.

We Do the Right Thing – always, for our customers, employees, and those we serve.

GLOBAL SUPPORT SOLUTIONS

Maintenance, Modifications, and Support Services

As a trusted partner to the U.S. military for more than a half century, DynCorp International performs to the highest standards while taking on the toughest assignments.

DynCorp International supports critical military and commercial vehicle and ground support equipment needs globally with end-to-end professional services and technical support. From rapid-response field assignments to long-term engagements, we provide the world's most comprehensive array of integrated solutions for ensuring our customers' success – regardless of the location or conditions.

By leveraging our extensive global infrastructure, we quickly organize and deploy workforce, materiel, and technology solutions to fit the need. When the need is for a turnkey solution, we provide self-sustaining programs that not only supply and maintain the mission but fulfill the critical operational roles of site development and operations, communication, security, and training.

MAINTENANCE

We provide organizational, intermediate, and limited depot-level maintenance for more than 200 types of ground support equipment around the globe. Today, our ground support equipment professionals and technicians support missions at locations worldwide – maintaining the highest level of operational readiness at all times.

- RESET & LBE Maintenance & Overhaul
- Fleet Maintenance
- Depot Support
- Quality Control – ISO 9000:2008 Certification
- Complete Aftermarket Logistics Support
- Repair Parts Management

MODIFICATIONS

We install vehicle and ground support equipment modifications for a broad range of equipment, spanning more than 100 different types of military and commercial variants worldwide. All modifications are carried out swiftly and thoroughly by our skilled professionals.

- Armor Replacement & Up-Armor Modifications
- Kit Manufacture & Installation
- Field Service Repair & Kit Installation
- Configuration Management
- HVAC Installation

SUPPORT SERVICES

Company-wide, we provide a broad range of services that can deliver a total mission solution or integrate as needed to fulfill any program's requirements.

In addition to vehicle and ground support equipment maintenance and modifications, we provide comprehensive mission support services and training. We are currently applying our global experience and broad expertise to the development of important aviation infrastructure projects, including international airports and aviation facilities in some of the most challenging regions of the world.
