

We serve today for a safe tomorrow.™

DynCorp International is a global government services provider in support of U.S. national security and foreign policy objectives, delivering support solutions for defense, diplomacy, and international development.

WE SERVE TODAY FOR A SAFE TOMORROW

DynCorp International operates major programs in logistics, platform support, contingency operations, and training and mentoring to reinforce security, community stability, and the rule of law.

We provide expertly conceived and professionally executed services to meet the complex demands of today's world. We have broad international expertise and over 60 years of experience working in remote, dangerous and austere environments. We integrate our many competencies to provide solutions that fit each customer and situation, and bring a culture of compliance, accountability, and relentless performance to each program and task.

WE ARE GUIDED AT ALL TIMES BY OUR CORE VALUES

As a service company, our people are our greatest asset. We pride ourselves on the quality and commitment of our personnel, the agility and depth of our program management, and the standards of excellence and of professional and ethical conduct we uphold in all that we do.

We Serve – willingly in all locations and conditions.

We Care – for the safety, security, development, and well-being of our employees.

We Empower – our employees to succeed in a culture based on trust, respect, loyalty, and commitment.

We Perform – with a relentless commitment to exceeding expectations.

We Do the Right Thing – always, for our customers, employees, and those we serve.

INFRASTRUCTURE

GLOBAL SUPPORT SOLUTIONS

Infrastructure Construction, Operations, and Maintenance

We provide a broad range of technical and professional services including construction planning and execution, facilities management and maintenance, logistics and contingency support, personnel sustainment, and security.

DynCorp International specializes in the engineering, construction, and operation of complex facilities, including military bases, energy installations, and ports worldwide. We have a distinguished legacy in providing range technical services to the U.S. military. Our professional engineers rapidly carry out any construction requirement, for contingency or long-term purposes. We build facilities in some of the world's most challenging places, including base camps in Iraq and police facilities in Afghanistan.

- **Infrastructure Engineering & Construction Management**
- **Facility & Equipment Maintenance & Operation**
- **Water & Wastewater Systems**
- **Electrical Power Production/Distribution**
- **Telecom & Internet Communications Infrastructure**
- **Hazardous Waste Management**
- **Custodial & Roads & Grounds Services**
- **IT Systems Design, Engineering, & Support**
- **Workforce Management, Support, & Sustainment**
- **Supply Chain Management**
- **Transportation**
- **Airfield & Aircraft Management**
- **Comprehensive Security Solutions**
- **Disaster Readiness & Response**

Our professional engineers are experts in field construction management and can meet expedited requirements. DI's worldwide operations and global supply chain enable us to source and deliver materials rapidly – even in austere, remote environments. We have successfully managed construction projects in Afghanistan, Iraq, Jordan, Oman, Liberia, Nigeria, Senegal, and Sudan.

GLOBAL PRESENCE, GLOBAL CAPABILITIES

From start to finish, our Operations & Maintenance teams provide total support, reviewing proposals, confirming estimates, scheduling suppliers, ensuring proper engineering supervision and getting the right people on the right jobs – in the office and in the field.

Logistics – We provide resources and logistical support to deliver materials and personnel quickly. Our global operations and aviation resources mean exceptional mobility including access to fixed-wing and rotary aircraft and armored cars.

Extreme Environments – We have essential core capabilities and a proven ability to get the job done in a variety of conditions, including sub-zero mountainous regions, extreme desert heat and sand, war-torn military zones, and post-conflict environments.

Ongoing Security and Support – We build communities, renovate infrastructure, and provide security and other services required to operate facilities after construction. Working with a single experienced source to address multiple needs is advantageous.

BUILDING SUCCESS, ONE CHALLENGE AT A TIME

Our legacy of success includes projects in some of the world's most challenging environments – from residential complexes and extensive training facilities in Afghanistan and base camps in forward operating locations in Iraq to military housing and operational facilities in Liberia and Southern Sudan.

Afghanistan – We completed 19 camp complexes throughout Afghanistan. Six are Regional Training Centers and two are major aviation centers, including operational maintenance facilities plus accommodation and living facilities.

Iraq – We completed and maintained 17 camp complexes throughout Iraq to support critical police training and personnel security missions. These projects were constructed under constant threat.

Jordan – We completed a multiple-use \$80 million Regional Police Training Center compound in Amman for up to 4,200 students and trainers.

Oman – We managed the largest construction and site upgrade program in the history of the U.S. Air Force's War Reserve Materiel (WRM) contract. In 2005-2006, 70 projects were awarded and completed to improve security, productivity, and asset-protection at multiple locations in the Gulf.

Liberia – We managed extensive renovation of an existing facility and the new construction of pre-fabricated military camps to support the emerging Armed Forces of Liberia.

Sudan – We completed six expedient temporary encampments with more than 100 buildings each to accommodate many residents, including members of the Sudanese People's Liberation Army.
