GLOBAL SUPPORT SOLUTIONS

Global Logistics Support

Our adaptable logistics solutions fit any need, from development and management of comprehensive long-term programs to rapid response contingency.

DynCorp International has the experience and knowledge to support large-scale military deployments and humanitarian aid operations across the globe. When the need is for a turnkey solution, we provide self-sustaining programs that not only supply and maintain the mission but fulfill the critical operational roles of site development and operations, communications, security, and training. Thanks to an unmatched global recruiting network, we can assemble skilled international teams for all levels of work, including special needs assignments such as weapons removal and abatement and range technical services.

SUPPORTING MISSIONS ACROSS THE GLOBE

Today we manage multiple large-scale programs such as the U.S. Army's Logistics Civilian Augmentation Program IV (LOGCAP) supporting U.S. military troops stationed in Afghanistan, Iraq, and Kuwait and the U.S. Air Force Southwest Asia War Reserve Materiel (WRM) Pre-positioning program, which includes operations in Oman, Bahrain, Qatar, Kuwait and two locations in the U.S., Albany, Georgia and Shaw Air Force base, South Carolina. The War Reserve Materiel program continues to partner with the U.S. Central Command Air Force in the development of new and innovative approaches to asset management.
