

# Tips for Applicants: Using the DynCorp International Online Application System

## 1. How to search for open job listings:

- If you have specific keywords you want to use in your job search, use the “Advanced Search” tab and enter a job number, keywords, field and/or location.
- If you simply want to browse all current openings, click on “All Jobs.”

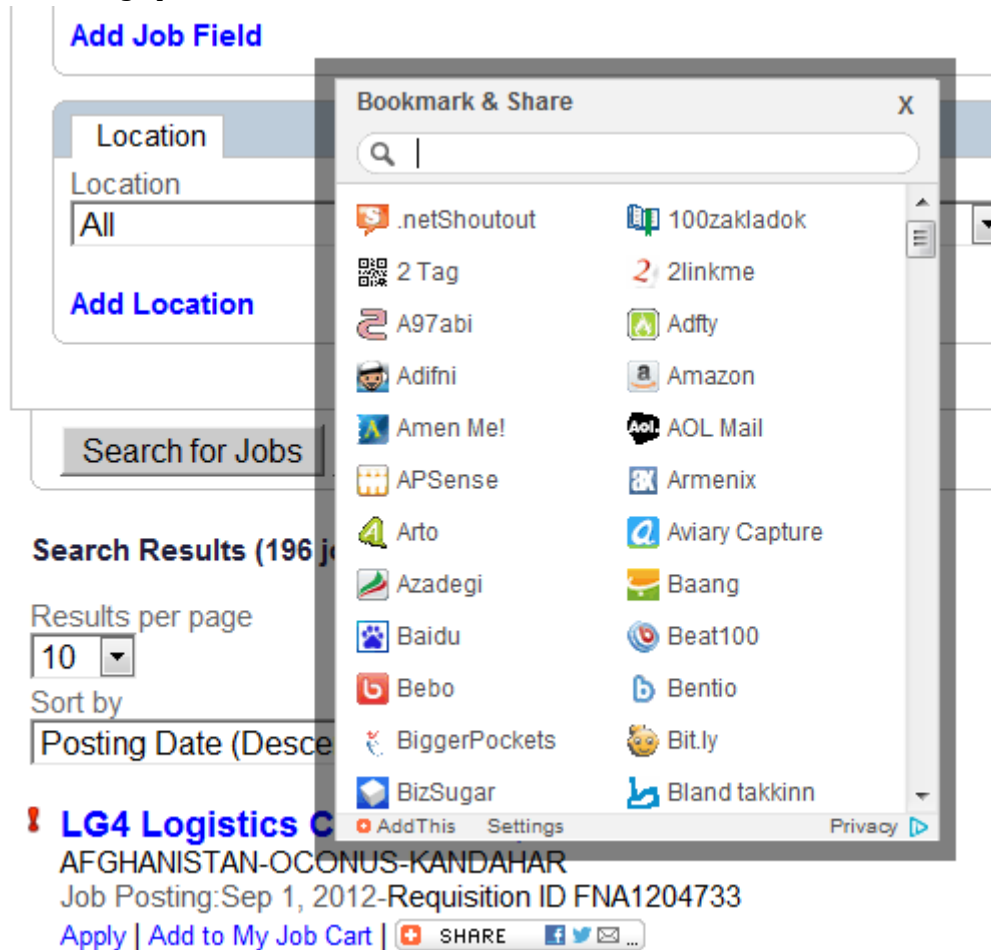

- You can search for jobs in more than one job field, location and organization at once by simply clicking “Add Job Field” or “Add Location.”

A screenshot of the "Search Criteria" form. At the top, it says "Specify your job search criteria, then click 'Search for Jobs'". Below this are input fields for "Job Number" and "Keywords". The "Job Field" section contains two dropdown menus, each set to "All", with "Remove Job Field" and "Add Job Field" links below them. A blue arrow points to the "Add Job Field" link. The "Location" section contains a dropdown menu set to "All" with an "Add Location" link below it, also indicated by a blue arrow.

## 2. Sharing job listings:

- If you find a job you or someone you know would be interested in seeing, the DI Careers site offers many sharing options. Users can share listings on most social networks by using the “Bookmark & Share” capability. Place your cursor over the desired position’s job title to reveal sharing options.

- Users may also refer a friend by using the “Submit a friend's profile” capability.
